For 2 Power contracts, Nodal Exchange is amending the contract series from “Currently, 69 months, but eligible to extend to current calendar/planning year plus up to 10 full calendar/planning years” to “Current calendar year plus 12 full calendar years”. For 42 Environmental Contracts, Nodal Exchange is amending the contract series from “Two May contracts, beginning with the year following the vintage year” to “July, August, October, November of the vintage year. January, February, April, May of the year following the vintage year”. For 10 Environmental Contracts, Nodal Exchange is amending the contract series from “Jan, Feb, Apr, May, Jul, Aug, Oct, Nov of the vintage year through the following year, plus one additional May” to “Jul, Aug, Oct, Nov of the vintage year. January, February, April, May of the year following the vintage year”. For 1 Environmental Contract, Nodal Exchange is amending the contract series from “Monthly contract sets for the current and coming calendar year starting from March 2020, plus December contracts for up to 10 consecutive years” to “Monthly contracts for the current and coming calendar years plus the end month of each quarter for the next ten years”.

The revisions to the 2 Power contracts went into effect on August 14, 2020 and the revisions to the 53 Environmental contracts went into effect on August 17, 2020. These revisions have no effect on the economic characteristics of these contracts in accordance with CFTC Regulation 40.6(d)(i).

The Nodal Exchange Rulebook Appendix A contract specifications for the revised contracts are attached hereto with the corrections noted in red on each of the contracts.
